

FOR IMMEDIATE RELEASE – SK Food International, Inc.

Fargo, ND – Aaron Skyberg of SK Food International was recently elected President of the Soyfoods Association of North America (SANA). Currently Skyberg also serves on the Membership Committee, promoting the organization to companies within the soyfood industry and encouraging their membership. Last year Skyberg held the Vice President position and has previously served on the board of directors for SANA. SK Food International has been a member of SANA since 2002.

“I’m pleased and honored to have been elected President of SANA. I look forward to continuing SANA’s mission and its objectives by encouraging sustainability, integrity and growth of the soyfoods industry through our members, and proactively promoting and upholding the benefits of soy-based foods,” comments Skyberg.

Skyberg has been with SK Food International for 9 years. He is responsible for providing sales and marketing support in all areas relating to certified organic and conventional non-GMO ingredients. Skyberg has played an active role in the soybean industry in many areas including the purchasing and marketing of soybeans. He also shares responsibility in overseeing the processing of SK Food’s specialized ingredients, including soybeans, at SK Food Specialty Processing, SK Food International’s processing facility, together with other contracted toll processing facilities. Skyberg has served the Non-GMO Project board for 3 years and recently spoke at Natural Products Expo West with the Non-GMO Project.

Since 1978, SANA has been a trusted resource for information regarding the health benefits and nutritional advantages of soy consumption. SANA strives to increase consumer awareness and use of soyfoods and soy based ingredients and to establish, promote and adopt soy industry standards for new and existing soyfoods.

SK Food International supplies a full line of Premium Quality Ingredients including Identity Preserved: Certified Organic and Conventional Non-GMO dry edible beans, grains, seeds, soybeans, brans/germs/fibers, flours/meals, vegetable oils, vinegars, sweeteners, rice products, split/dehulled soybeans and instant powders/flakes.
